PART I.

Item 1. Business

General

Insignia Systems, Inc. (referred to in this Annual Report on Form 10-K as “Insignia,” “we,” “us,” “our” and the “Company”) markets in-store advertising products, programs and services to consumer packaged goods manufacturers (customers) and retailers. The Company was incorporated in 1990. Since 1998, the Company has been focusing on providing in-store advertising services through the Insignia Point-Of-Purchase Services (POPS) in-store advertising program. Insignia POPS® includes the Insignia POPSign® program.

Insignia’s POPSign is a national, account-specific, in-store, shelf-edge advertising program that we believe delivers significant sales increases. Funded by consumer packaged goods manufacturers, the program allows manufacturers to deliver vital product information to consumers at the point-of-purchase. The brand information is combined with each retailer's store-specific prices and is displayed on the retailer's unique sign format. We believe that combining manufacturer and retailer information produces a complete "call to action" that gets consumers the information they want and need to make purchasing decisions, while building store and brand equity.

For retailers, Insignia’s POPSign program is a source of incremental revenue and is an in-store advertising program that delivers a complete "call to action" on a product-specific and store-specific basis. For consumer packaged goods manufacturers, Insignia’s POPSign program provides access to what we believe is the optimum retail advertising site for their products – the retail shelf-edge. In addition, we believe manufacturers benefit from significant sales increases, short lead times, micro-marketing capabilities, such as store-specific and multiple language options, and a wide variety of program features and enhancements that provide unique advertising advantages.

The Company’s internet address is www.insigniasystems.com. The Company has made all of the reports it files with the SEC available free of charge on its Web site. The Company’s Web site is not incorporated by reference into this Report on Form 10-K. Copies of reports can also be obtained free of charge by requesting them from Insignia Systems, Inc., 8799 Brooklyn Boulevard, Minneapolis, Minnesota 55445; Attention: CFO; telephone 763-392-6200.

Industry and Market Background

According to Point-Of-Purchase Advertising International (POPAI), an industry non-profit trade association, more than 70% of brand purchase decisions are being made in-store. As a result, product manufacturers are constantly seeking in-store vehicles to motivate consumers to buy their branded products. The Company’s market studies indicate that the shelf-edge sign represents the final and best opportunity for manufacturers to convince the consumer to buy.

Many consumers seek product information beyond price in order to make educated buying decisions. The Company’s marketing studies indicate the most effective signs contain information supplied by the product manufacturer in combination with the retailer’s price and design look.

Company Products

Insignia’s POPSign Program

Insignia’s POPSign program is an in-store, shelf-edge, point-of-purchase advertising program that enables manufacturers to deliver product-specific messages quickly and accurately – in designs and formats that have been pre-approved and supported by participating retailers. Insignia POPSign delivers vital product selling information from manufacturers, such as product uses and features, nutritional information, advertising tag lines and product images. The brand information is combined with the retailer's store-specific prices and is displayed on the retailer’s unique sign format that includes its logo and store colors. Each sign is displayed directly in front of the manufacturer’s product in the participating retailer’s stores. The Company’s POPSign program offers special features and enhancements, such as ShapePOPS,® which is an enhancement to its Color POPSigns that was developed in 2011.

The Company sells its POPSign programs directly to consumer packaged goods manufacturers and to Valassis Sales and Marketing Services, Inc. (“Valassis”) for resale to consumer packaged goods manufacturers. POPSign programs are delivered to retailers participating in the Company’s POPSign retail network and to retailers under contract with Valassis and News America Marketing In-Store, LLC (News America).

Utilizing proprietary technology, the Company collects and organizes the data from manufacturers and retailers, then formats, prints and delivers the signs to its POPSign retailers and/or Valassis’ and News America’s directly contracted retailers for distribution and display. Store personnel place the signs at the shelf for display cycles in participating stores in Insignia’s contracted network of retailers. Personnel from a contracted third-party merchandising company place the signs at the shelf for display cycles in participating retail stores in Valassis’ and News America’s contracted network of retailers. The Company charges manufacturers for the signs available to be placed in stores for each cycle. Retailers are paid a fee to display the signs and for product movement data provided to Insignia. The Company pays a fee to Valassis and News America for programs provided to retailers under direct contract with Valassis and News America.

Laser Printer and Vinyl Label Supplies

The Company provides a comprehensive offering of laser printable cardstock and vinyl labels to retailers for their in-store signage and shelf-edge product information needs. Products include adhesive and non-adhesive supplies in a variety of colors, sizes and weights. Approximately 4% of 2013 revenues came from the sale of laser printer and vinyl label supplies. The Company expects this percentage to be comparable in future periods.

The Impulse Retail System and SIGNright Sign System

Prior to 1996, the Company’s primary product offering was the Impulse Retail System, a system developed by an independent product design and development firm. The Company continues to sell cardstock, maintenance agreements and supplies related to the Impulse Retail System to U.S. and international customers. Cardstock for the Impulse Retail System is sold by the Company in a variety of sizes and colors that can be customized to include pre-printed custom artwork, such as a retailer’s logo. Approximately 2% of 2013 revenues came from the sale of cardstock, maintenance agreements and supplies. The Company expects this percentage to be comparable in future periods.

Stylus Software

In late 1993, the Company introduced Stylus; a PC-based software application used by retailers to produce signs, labels, and posters. The Stylus software allows retailers to create signs, labels and posters by manually entering the information or by importing information from a database. Less than 1% of 2013 revenues came from the sale of Stylus products and maintenance. The Company expects this percentage to decrease in future periods due to the Company focusing on other products for future growth.

Marketing and Sales

The Company directly markets the Insignia POPSign program to food and drug manufacturers and retailers. By utilizing the Insignia POPSign program, we believe these manufacturers and retailers can easily accomplish what had previously been either impossible or extremely difficult: tailoring national in-store advertising programs to regional and local needs with minimal effort. In addition to the benefits provided to manufacturers and retailers, we believe Insignia’s POPSign program provides consumers more information and clear messages to aid in purchasing decisions. The Company believes its POPSign program is the most complete in-store advertising sign program available, benefiting consumers, retailers, and manufacturers. As of December 31, 2013 the Company and Valassis were parties to an Exclusive Reseller Agreement, as amended, which defined a strategic alliance between the companies and was in effect through December 31, 2017. In February 2014, the Company and Valassis signed a new agreement that replaced all prior agreements. As a result of this new agreement, which is in effect through December 31, 2017, among other things, Valassis is no longer an exclusive reseller of the Company’s POPSign and the Company now has access to all consumer packaged goods manufacturers for the sale of POPSigns, in exchange for total consideration of \$500,000 which will be paid in 2014.

During 2013 and 2012, foreign sales accounted for less than 1% of total net sales each year. The Company expects sales to foreign distributors will be less than 1% of total net sales in 2014.

Competition

The Insignia POPSign program provides the vast majority of the Company's annual revenues. The POPSign program faces intense competition for the marketing expenditures of branded product manufacturers for at-shelf advertising-related signage. In particular, the Company faces significant competition from News America and Valassis, which also provide at-shelf advertising and promotional signage. Although settlement of prior litigation with News America resulted in a 10-year agreement that provides the Company additional opportunities to compete by offering signs with price in specific parts of News America's retail network, the Company will continue to compete for advertising dollars with News America's other at-shelf advertising and promotional signage offerings.

We believe the main strengths of the Insignia POPSign program in relation to its competitors are:

- the linking of manufacturers to retailers at a central distribution point for in-store advertising
- providing a complete "call to action" service
- supplying product-specific and store-specific messages at the retail shelf
- delivering vital product information and store-specific prices
- short lead times to program execution
- significant sales increases

Intellectual Property: Patents and Trademarks

The Company has developed and is using a number of trademarks, service marks, slogans, logos and other commercial symbols to advertise and sell its products. The Company owns U.S. registered trademarks for Insignia Systems, Inc.[®] (and Design), Insignia POPS[®], POPS Select[®], Insignia POPSign[®], Insignia ShelfPOPS[®], UltraColor[®], Stylus[®], Stylus Work Center[®], SIGNright[®], Impulse[®], DuraSign[®], I-Care[®], Check This Out[®], Color POPSign[®], BannerPOPS[®] and BrandPOPS[®].

The Company is in the process of obtaining trademark registrations in the United States for the trademark Insignia EquityPOPS[™], Category POPS[™], ShapePOPS[™] and ShapePOPS[™] Premier.

The Company licenses the right to use a patented barcode on the sign cards for the Company's Impulse Retail System. Neither revenues from this product line, nor royalties paid under the license agreement, are considered material.

Key employees are required to enter into nondisclosure and invention assignment agreements. Customers, vendors and other third parties also must agree to nondisclosure restrictions to prevent unauthorized disclosure of our trade secrets or other confidential or proprietary information.

Product Development

Product development for Insignia's POPSign program has been conducted internally and includes the proprietary data management and operations system, as well as the current offering of point-of-purchase and other advertising products. Ongoing internal systems enhancements, as well as the development of point-of-purchase and other advertising or promotional products, will be conducted utilizing both internal and external resources as appropriate.

Customers

During the year ended December 31, 2013, one customer accounted for 31% of the Company's total net sales. At December 31, 2013, this customer represented 47% of the Company's total accounts receivable. Additionally, another customer accounted for 14% of the Company's total accounts receivable as of December 31, 2013. During the year ended December 31, 2012, one customer accounted for 30% of the Company's total net sales. At December 31, 2012, this customer represented 43% of the Company's total accounts receivable.

Backlog

Sales backlog on February 26, 2014 was approximately \$14.5 million, the vast majority of which is for programs running during the remainder of 2014. The orders are believed to be firm, but there is no assurance that all of the backlog will actually result in revenues. Sales backlog on March 1, 2013 was approximately \$13.3 million.

Seasonality

The Company's results of operations have fluctuated from quarter to quarter due to variations in net sales and operating expenses described in more detail below. There appears to be no seasonal pattern to these fluctuations.

The Company's results of operations fluctuate from quarter to quarter as a result of the following:

- The timing of promotional events for customers;
- Variations in the specific products which customers choose to advertise;
- Fluctuations in advertising budgets of customers and the amounts they commit to in-store advertising;
- Variations in the number of retailers in the Company's network;
- Sales incentives to sales staff and strategic partners; and
- Minimum program level commitments to retailers.

Environmental Matters

We believe our operations are in compliance with all applicable environmental regulations within the jurisdictions in which we operate.

Employees

As of February 28, 2014, the Company had 70 employees, including 63 full-time and seven part-time employees. We believe relations with our employees are good.

Segment Reporting

The Company operates in a single reportable segment.

Item 1A. Risk Factors

Forward-Looking Statements

Statements made in this Annual Report on Form 10-K, in the Company's other SEC filings, in press releases and in oral statements to shareholders and securities analysts that are not statements of historical or current facts are "forward-looking statements." Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results or performance of the Company to be materially different from the results or performance expressed or implied by such forward-looking statements. The words "believes," "expects," "anticipates," "seeks" and similar expressions identify forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statement was made. These statements are subject to the risks and uncertainties that could cause actual results to differ materially and adversely from the forward-looking statements. These risks and uncertainties include, but are not limited to, the risks described below.

Our business faces significant risks, including the risks described below. If any of the events or circumstances described in the following risks occurs, our business, financial condition or results of operations could suffer, and the trading price of our common stock could decline.

Our Results Are Dependent on Our Manufacturing Partners' Continued Use of Our POPS Program

We are largely dependent on our POPS program, which represents approximately 94% and 91% of the total net sales for fiscal 2013 and 2012, respectively. The POPS program is sold primarily to consumer packaged goods manufacturers. Should these manufacturers no longer perceive value in the POPS program, or if our POPS program does not continue to result in product sales increases, our business and results of operations would be adversely affected due to our heavy dependence on this program. Additionally, changes in economic conditions could result in reductions in advertising and promotional expenditures by branded product manufacturers, which may result in decreased spending for the in-store advertising services we offer.

We Are Dependent On Our Contracts with Retailers and Our Ability to Renew Those Contracts When Their Terms Expire

On an ongoing basis, we negotiate renewals of various retailer contracts which allow us access to place signs at shelf in their stores. Some of our retailer contracts require us to guarantee minimum payments. If we are unable to offer guarantees at the required levels in the new contracts, and the contracts are not renewed because of that reason or because of other reasons, it will have a material adverse effect on our operations and financial condition.

Our POPS business and results of operations could be adversely affected if the number of retailer partners decreases significantly or if the retailer partners fail to continue to perform their duties in placing and maintaining POPS signs at the shelf in their stores and providing product movement data to us.

Our Results Are Dependent On the Success of Our Relationship with Valassis and Our Selling Arrangement with News America

Our strategic alliance with Valassis offers an expanded network of retailers for placement of in-store advertising and thus far has resulted in increased revenues for the Company. If our strategic alliance with Valassis does not continue to be successful, our revenue levels and our participating retailer network could be adversely affected.

Additionally, our results will depend, in part, on the success of our sales and marketing efforts as News America's exclusive agent for signs with price into the News America network of retailers and upon our ability to successfully sell programs into this network. Additionally, if disputes with News America arise in the future regarding the operational aspects of our agreement, it could have an adverse effect on the Company.

We Face Significant Competition

We face significant competition from News America and Valassis, companies that also provide at-shelf advertising and promotional signage. Although the settlement with News America resulted in a 10-year agreement through 2021 that provides us additional opportunities to compete by offering signs with price in News America's network, we will continue to compete for advertising dollars with News America's other at-shelf advertising and promotional signage offerings. News America and Valassis have significantly greater financial resources that can be used to market their products. Should our competitors succeed in obtaining more of the at-shelf advertising business from our current customers, our revenues and related operations would be adversely affected.

We Have Been Involved In Major Litigation

We had been involved in major litigation with News America for several years. During 2011, the Company and News America entered into a settlement agreement to resolve the antitrust and false advertising lawsuit that had been outstanding for several years. Although the Company obtained a significant settlement in 2011, if future disputes with News America, or other companies arise, it could have a material adverse effect on our Company.

Our Results of Operations May Be Subject To Significant Fluctuations

Our quarterly and annual operating results have fluctuated in the past and may vary in the future due to a wide variety of factors including:

- the addition or loss of contracts with retailers;
- the timing of seasonal events for customers or the loss of customers;
- the timing of new retail stores being added;
- costs of evaluating and developing new products;
- the timing of additional selling, marketing and general and administrative expenses; and
- competitive conditions in our industry.

Due to these factors, our quarterly and annual net sales, expenses and results of operations could vary significantly in the future and this could adversely affect the market price of our common stock.

Our Customers and Retailers May Be Susceptible To Changes in Economic Conditions

Our revenues are affected by our customers' marketing and advertising spending and our revenues and results of operations may be subject to fluctuations based upon general economic conditions. Another economic downturn may reduce demand for our products and services or depress pricing of those products and services and have an adverse effect on our results of operations. Retailers may be impacted by changes in consumer spending as well, which may adversely impact our ability to renew contracts with our existing retailers as well as contract with new retailers on terms which are acceptable. In addition, if we are unable to successfully anticipate changing economic conditions, we may be unable to effectively plan for and respond to those changes, and our business could be negatively affected.

Investment in Our Stock Could Result in Fluctuating Returns

During the year ended December 31, 2013, the last reported price of our common stock as quoted on the NASDAQ Stock Market ranged from a low of \$1.59 to a high of \$3.02. We believe factors such as the fluctuations in our quarterly and annual operating results described above, the market's acceptance of our services and products, the performance of our business relative to market expectations, as well as general volatility in the securities markets, could cause the market price of our common stock to fluctuate substantially. In addition, the stock markets have experienced price and volume fluctuations, resulting in changes in the market prices of the stock of many companies, which may not have been directly related to the operating performance of those companies.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

The Company currently leases approximately 41,000 square feet of office and warehouse space in suburban Minneapolis, Minnesota, through February 29, 2016. The Company believes that the 41,000 square feet of space will meet the Company's foreseeable needs.

Item 3. Legal Proceedings

From time to time, the Company is subject to various legal matters in the normal course of business. The Company currently has no material pending legal proceedings.

Item 4. Mine Safety Disclosures

Not applicable.

PART II.

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

a) Market Information

The Company's common stock trades on the NASDAQ Capital Market® under the symbol ISIG. The following table summarizes the high and low sale prices per share of our common stock for the periods indicated as reported by NASDAQ.

2013	High	Low	2012	High	Low
First Quarter	\$ 2.32	\$ 1.59	First Quarter	\$ 2.24	\$ 1.48
Second Quarter	2.19	1.85	Second Quarter	2.11	1.63
Third Quarter	3.02	2.05	Third Quarter	1.92	1.53
Fourth Quarter	2.91	2.32	Fourth Quarter	1.80	1.51

b) Approximate Number of Holders of Common Stock

As of February 26, 2014, the Company had one class of Common Stock held by approximately 93 owners of record.

c) Dividends

The Board of Directors has not historically declared dividends, and it presently intends to retain all earnings for use in the Company's business and does not anticipate paying cash dividends in the foreseeable future.

d) Issuer Repurchases of Equity Securities

On July 18, 2013, the Company commenced a "modified Dutch auction" tender offer ("Tender Offer") to purchase up to \$12 million of its common stock. Under the terms of the Tender Offer, the Company's shareholders had the opportunity to tender some or all of their shares at a price within the range of \$2.15 to \$2.35 per share. The Tender Offer expired on August 15, 2013. The Tender Offer resulted in the purchase of 929,051 shares at \$2.35 per share, for an aggregate cost to the Company of approximately \$2.2 million, excluding fees and expenses related to the Tender Offer.

Our Tender Offer purchase activity for the year ended December 31, 2013, was:

Purchase Date	Total Number Of Shares Repurchased	Average Price Paid Per Share	Total Number of Shares Purchased As Part Of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased under the Plans or Programs
August 15, 2013	929,051	\$ 2.35	929,051	\$ –

Additionally, on December 3, 2013, the Board of Directors of the Company approved a Stock Repurchase Plan (the “Plan”), authorizing the Company to repurchase up to \$5,000,000 of the Company’s Common Stock. Under the Plan, any shares repurchased must be purchased no later than December 3, 2015. The Plan allows the repurchases to be made in open market or privately negotiated transactions.

The Company did not repurchase any of its common stock during the fourth quarter of the fiscal year ended December 31, 2013.

Item 6. Selected Financial Data

Not applicable.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the financial statements and the related notes included in this Annual Report. This Annual Report contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those in such forward-looking statements as a result of many factors, including those discussed in “Forward-Looking Statements” and elsewhere in this Annual Report.

Results of Operations

The following table sets forth, for the periods indicated, certain items in the Company’s Statements of Operations as a percentage of total net sales.

For the Years Ended December	2013	2012
Net sales	100.0 %	100.0 %
Cost of sales	54.1	63.8
Gross profit	45.9	36.2
Operating expenses:		
Selling	19.8	25.0
Marketing	3.1	5.7
General and administrative	14.4	16.8
Total operating expenses	37.3	47.5
Operating income (loss)	8.6	(11.3)
Other income	0.1	0.1
Income (loss) before taxes	8.7	(11.2)
Income tax expense (benefit)	3.7	(3.1)
Net income (loss)	5.0 %	(8.1) %

Fiscal 2013 Compared to Fiscal 2012

Net Sales. Net sales for the year ended December 31, 2013 increased 37.6% to \$27,755,000 compared to \$20,174,000 for the year ended December 31, 2012.

Service revenues from our POPSign programs for the year ended December 31, 2013 increased 41.7% to \$26,128,000 compared to \$18,433,000 for the year ended December 31, 2012. The increase was primarily due to a 37% increase in the number of signs placed and a 4% increase in the average price of our signs placed from the previous year.

Product sales for the year ended December 31, 2013 decreased 6.5% to \$1,627,000 compared to \$1,741,000 for the year ended December 31, 2012. The decrease was primarily due to decreased sales of Stylus Software based upon decreased demand for this product from our customers.

Gross Profit. Gross profit for the year ended December 31, 2013 increased 74.6% to \$12,746,000 compared to \$7,302,000 for the year ended December 31, 2012. Gross profit as a percentage of total net sales increased to 45.9% for 2013 compared to 36.2% for 2012.

Gross profit from our POPSign program revenues for the year ended December 31, 2013 increased 81.9% to \$12,302,000 compared to \$6,764,000 for the year ended December 31, 2012. The increase in gross profit from our POPSign program was primarily due to increased revenues resulting from enhanced product offerings and the effect of fixed costs being spread over higher sales. Gross profit as a percentage of POPSign program revenues increased to 47.1% for 2013 compared to 36.7% for 2012, due primarily to the factors described above.

Gross profit from our product sales for the year ended December 31, 2013 decreased 17.5% to \$444,000 compared to \$538,000 for the year ended December 31, 2012. Gross profit as a percentage of product sales decreased to 27.3% for 2013 compared to 30.9% for 2012. The decreases were primarily due to decreased sales and the effect of fixed costs being spread over lower sales.

Operating Expenses

Selling. Selling expenses for the year ended December 31, 2013 increased 9.0% to \$5,505,000 compared to \$5,049,000 for the year ended December 31, 2012, primarily due to performance related compensation expenses. Selling expenses as a percentage of total net sales decreased to 19.8% in 2013 compared to 25.0% in 2012, primarily due to increased revenues.

Marketing. Marketing expenses for the year ended December 31, 2013 decreased 25.5% to \$856,000 compared to \$1,149,000 for the year ended December 31, 2012, primarily due to decreased staffing-related expenses. Marketing expenses as a percentage of total net sales decreased to 3.1% in 2013 compared to 5.7% in 2012, primarily due to increased revenues and the factors described above.

General and Administrative. General and administrative expenses for the year ended December 31, 2013 increased 17.7% to \$3,988,000 compared to \$3,388,000 for the year ended December 31, 2012, primarily due to performance related compensation expenses. General and administrative expenses as a percentage of total net sales decreased to 14.4% in 2013 compared to 16.8% in 2012, primarily due to increased revenues.

Other Income. Other income, which was comprised of interest income, for the year ended December 31, 2013 was \$28,000 compared to other income of \$27,000 for the year ended December 31, 2012. The increase in other income in 2013 was primarily the result of higher cash and cash equivalent balances during 2013.

Income Taxes. During the year ended December 31, 2013, the Company recorded an income tax expense of \$1,046,000. During the year ended December 31, 2012, the Company recorded an income tax benefit of \$633,000. The primary differences between the Company's December 31, 2013 and 2012 effective tax rates and the statutory federal rates are expenses related to equity compensation and nondeductible meals and entertainment.

Net Income (Loss). For the reasons stated above, the net income for the year ended December 31, 2013 was \$1,379,000 compared to a net loss of \$(1,624,000) for the year ended December 31, 2012.

Liquidity and Capital Resources

The Company has financed its operations with proceeds from public and private stock sales and sales of its services and products. At December 31, 2013, working capital was \$22,203,000 compared to \$21,791,000 at December 31, 2012. During the year ended December 31, 2013, cash and cash equivalents increased by \$1,492,000 from \$20,271,000 at December 31, 2012 to \$21,763,000 at December 31, 2013.

Net cash provided by operating activities during the year ended December 31, 2013 was \$3,979,000. The net income of \$1,379,000, plus non-cash adjustments of \$1,757,000 and changes in operating assets and liabilities of \$843,000 were the items that contributed to the cash provided by operating activities. The non-cash adjustments of \$1,757,000 consisted of depreciation and amortization, deferred income tax expense, stock-based compensation expense and gain

on sale of fixed assets. The most significant component of the \$843,000 change in operating assets and liabilities was income tax receivable. The income tax receivable decreased during 2013 mainly due to payments received on tax refund claims. The Company expects accounts receivable, accounts payable, accrued liabilities and deferred revenue to fluctuate during future periods depending on the level of revenues and related business activity as well as billing arrangements with customers and payment terms with retailers.

Net cash of \$250,000 was used in investing activities during the year ended December 31, 2013, due to the purchase of property and equipment related mainly to software and computer equipment of \$265,000, partially offset by proceeds from the sale of property and equipment of \$15,000.

Net cash of \$2,237,000 was used in financing activities during the year ended December 31, 2013, due to the repurchase of common stock of \$2,328,000, partially offset by proceeds received from the issuance of common stock under the employee stock purchase plan and other stock option exercises of \$91,000.

In December 2013, the Board of Directors of the Company approved a Stock Repurchase Plan (the "Plan"), authorizing but not obligating the Company to repurchase up to \$5,000,000 of the Company's Common Stock. The Company anticipates commencing this repurchase plan in the first quarter of 2014.

As a result of the Company's new agreement with Valassis, the Company will pay Valassis \$500,000 in 2014 in exchange for the Company being able to sell POPSigns to all consumer packaged goods manufacturers.

The Company believes that based upon current business conditions, its existing cash balance and future cash from operations will be sufficient for its cash requirements in the foreseeable future. However, there can be no assurances that this will occur or that the Company will be able to secure additional financing from public or private stock sales or from other financing agreements if needed.

Critical Accounting Policies

Our discussion of our financial condition and results of operations is based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. During the preparation of these financial statements, we are required to make estimates and assumptions that affect the reported amounts of assets, liabilities, net revenues, costs and expenses and related disclosures. On an ongoing basis, we evaluate our estimates and assumptions, including those related to revenue recognition, allowance for doubtful accounts, impairment of long-lived assets, income taxes, and stock-based compensation expense. We base our estimates on historical experience and on various other assumptions that we believe are reasonable under the circumstances. The results of our analysis form the basis for making assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions, and the impact of such differences may be material to our financial statements.

We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our financial statements:

Revenue Recognition. The Company recognizes revenue from Insignia POPSigns ratably over the period of service, which is typically a two-week display cycle. We recognize revenue related to equipment, software and sign card sales at the time the products are shipped to customers. Revenue associated with maintenance agreements is recognized ratably over the life of the contract. Revenue that has been billed and not yet recognized is reflected as deferred revenue on our balance sheet.

Allowance for Doubtful Accounts. An allowance is established for estimated uncollectible accounts receivable. The Company determines its allowance by considering a number of factors, including the length of time trade accounts receivable are past due, the Company's previous loss history, the customer's current ability to pay its obligation to the Company, the condition of the general economy and the industry as a whole and other relevant facts and circumstances. Unexpected changes in the aforementioned factors could result in materially different amounts.

Impairment of Long-Lived Assets. The Company periodically evaluates the carrying value of its long-lived assets for impairment indicators. If indicators of impairment are present, we evaluate the carrying value of the assets in relation to the future cash flows of the underlying assets to assess recoverability of the assets. The estimates of these future cash flows are based on assumptions and projections believed by management to be reasonable and supportable. They require management's subjective judgments and take into account assumptions about revenue and expense growth rates. Impaired assets are then recorded at their estimated fair market value.

Income Taxes. Deferred income taxes are determined based on the estimated future tax effects of differences between the financial statement and tax basis of assets and liabilities given the provisions of enacted tax laws. Deferred income tax provisions and benefits are based on changes to the assets or liabilities from year to year. In providing for deferred taxes, we consider tax regulations of the jurisdictions in which we operate, estimates of future taxable income, and available tax planning strategies. If tax regulations, operating results or the ability to implement tax-planning strategies vary, adjustments to the carrying value of deferred tax assets and liabilities may be required. Valuation allowances are recorded related to deferred tax assets based on the "more likely than not" criteria.

We recognize the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority.

Stock-Based Compensation. We measure and recognize compensation expense for all stock-based payments at fair value. We use the Black-Scholes option pricing model to determine the weighted average fair value of options and employee stock purchase plan rights. The determination of fair value of share-based payment awards on the date of grant using an option-pricing model is affected by our stock price as well as by assumptions regarding a number of highly complex and subjective variables. These variables include, but are not limited to, the expected stock price volatility over the term of the awards, and actual and projected employee stock option exercise behaviors.

The expected terms of the options and employee stock purchase plan rights are based on evaluations of historical and expected future employee exercise behavior. The risk-free interest rate is based on the U.S. Treasury rates at the date of grant with maturity dates approximately equal to the expected life at grant date. Volatility is based on historical volatility of the Company's stock. The Company has not historically issued any dividends beyond the one-time dividend in 2011 and does not expect to in the future. Forfeitures are estimated at the time of the grant and revised, if necessary, in subsequent periods if actual forfeitures differ from estimates.

If factors change and we employ different assumptions in the valuation of grants in future periods, the compensation expense that we record may differ significantly from what we have recorded in the current period.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
Insignia Systems, Inc.

We have audited the accompanying balance sheets of Insignia Systems, Inc. (the Company) as of December 31, 2013 and 2012, and the related statements of operations, shareholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of its internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Insignia Systems, Inc. as of December 31, 2013 and 2012 and the results of its operations and its cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

Insignia Systems, Inc.
NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies.

Description of Business. Insignia Systems, Inc. (the “Company”) markets in-store advertising products, programs and services to retailers and consumer packaged goods manufacturers. The Company’s products include the Insignia Point-of-Purchase Services (POPS) in-store advertising program, thermal sign card supplies for the Company’s SIGNright and Impulse systems, Stylus software and laser printable cardstock and label supplies.

Revenue Recognition. Revenues are recognized by the Company when persuasive evidence of an arrangement exists, shipment has occurred, the price is fixed, and collectability is reasonably assured. The Company recognizes revenue from Insignia POPSigns ratably over the period of service. The Company recognizes revenue related to equipment, software and sign card sales at the time the products are shipped to customers. Revenue associated with maintenance agreements is recognized ratably over the life of the contract. Revenue that has been billed and not yet earned is reflected as deferred revenue on the balance sheet.

Cash and Cash Equivalents. The Company considers all highly liquid investments with an original maturity date of three months or less to be cash equivalents. Cash equivalents are stated at cost, which approximates fair value. At December 31, 2013, \$4,580,000 was invested in an overnight repurchase account and \$17,000,000 was invested in certificates of deposit. At December 31, 2012, \$6,831,000 was invested in an overnight repurchase account and \$13,000,000 was invested in certificates of deposit. The balances in cash accounts, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents. Amounts held in checking accounts during the years ended December 31, 2013 and 2012, were fully insured under the Federal Deposit Insurance Corporation (“FDIC”). Amounts held in repurchase accounts during the years ended December 31, 2013 and 2012, were secured by Federal Home Loan securities and were fully insured by the FDIC. Bank certificates of deposit at December 31, 2013 and 2012, were held at various institutions with amounts at each institution at or below the \$250,000 insured limit of the FDIC.

Fair Value of Financial Instruments. The financial statements include the following financial instruments: cash and cash equivalents, accounts receivable, and accounts payable. The carrying value of these financial instruments approximate fair value because of the short-term nature of these instruments.

Accounts Receivable. The majority of the Company's accounts receivable is due from companies in the consumer packaged goods industry. Credit is extended based on evaluation of a customer’s financial condition and, generally, collateral is not required. Accounts receivable are due within 30-90 days and are stated at amounts due from customers, net of an allowance for doubtful accounts. Accounts receivable outstanding longer than the contractual payment terms are considered past due. The Company determines its allowance by considering a number of factors, including the length of time trade accounts receivable are past due, the Company’s previous loss history, the customer’s current ability to pay its obligation to the Company, and the condition of the general economy and the industry as a whole. The Company writes-off accounts receivable when they become uncollectible, and payments subsequently received on such receivables are credited to the allowance for doubtful accounts.

Changes in the Company's allowance for doubtful accounts are as follows:

December 31	2013	2012
Beginning balance	\$ 22,000	\$ 12,000
Bad debt provision	101,000	11,000
Accounts written-off	(106,000)	(1,000)
Ending balance	\$ 17,000	\$ 22,000

Inventories. Inventories are primarily comprised of parts and supplies for the Impulse machine, sign cards, and roll stock. Inventory is valued at the lower of cost or market using the first-in, first-out (FIFO) method, and consists of the following:

December 31	2013	2012
Raw materials	\$ 71,000	\$ 72,000
Work-in-process	12,000	3,000
Finished goods	224,000	235,000
	\$ 307,000	\$ 310,000

Property and Equipment. Property and equipment is recorded at cost. Significant additions or improvements extending asset lives are capitalized, while repairs and maintenance are charged to expense when incurred. Depreciation is provided in amounts sufficient to relate the cost of assets to operations over their estimated useful lives. The straight-line method of depreciation is used for financial reporting purposes and accelerated methods are used for tax purposes. Estimated useful lives of the assets are as follows:

Production tooling, machinery and equipment	1 - 6 years
Office furniture and fixtures	3 years
Computer equipment and software	3 years
Web development	3 years

Leasehold improvements are amortized over the shorter of the remaining term of the lease or estimated life of the asset.

Impairment of Long-Lived Assets. The Company records impairment losses on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amount. Impaired assets are then recorded at their estimated fair market value. There were no impairment losses during the years ended December 31, 2013 and 2012.

Income Taxes. Income taxes are accounted for under the liability method. Deferred income taxes are provided for temporary differences between the financial reporting and tax basis of assets and liabilities. Deferred taxes are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or the entire deferred tax asset will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of the enactment. It is the Company's policy to provide for uncertain tax positions and the related interest and penalties based upon management's assessment of whether a tax benefit is more likely than not to be sustained upon examination by tax authorities. The Company recognizes interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense.

Stock-Based Compensation. The Company measures and recognizes compensation expense for all stock-based payments at fair value. We use the Black-Scholes option pricing model to determine the weighted average fair value of options and employee stock purchase plan rights. The determination of fair value of share-based payment awards on the date of grant using an option-pricing model is affected by our stock price as well as by assumptions regarding a number of complex and subjective variables. These variables include, but are not limited to, the

expected stock price volatility over the term of the awards, and actual and projected employee stock option exercise behaviors.

The expected lives of the options and employee stock purchase plan rights are based on evaluations of historical and expected future employee exercise behavior. The risk-free interest rate is based on the U.S. Treasury rates at the date of grant with maturity dates approximately equal to the expected term at grant date. Volatility is based on historical and expected future volatility of the Company's stock. The Company has not historically issued any dividends beyond the one-time dividend in 2011 and does not expect to in the future. Forfeitures are estimated at the time of the grant and revised, if necessary, in subsequent periods if actual forfeitures differ from estimates.

If factors change and we employ different assumptions in the valuation of grants in future periods, the compensation expense that we record may differ significantly from what we have recorded in the current periods.

Advertising Costs. Advertising costs are charged to operations as incurred. Advertising expenses were approximately \$14,000 and \$34,000 during the years ended December 31, 2013 and 2012, respectively.

Net Income (Loss) Per Share. Basic net income (loss) per share is computed by dividing net income (loss) by the weighted average shares outstanding and excludes any dilutive effects of options and warrants. Diluted net income (loss) per share gives effect to all diluted potential common shares outstanding during the year.

Options to purchase approximately 901,000 shares of common stock with a weighted average exercise price of \$3.60 were outstanding at December 31, 2013 and were not included in the computation of common stock equivalents because their exercise prices were higher than the average fair market value of the common shares during the year. Due to the net loss incurred during the year ended December 31, 2012, all common stock options were anti-dilutive.

Weighted average common share outstanding for the years ended December 31, 2013 and 2012 were as follows:

Year ended December 31	2013	2012
Denominator for basic net income (loss) per share - weighted average shares	13,324,000	13,605,000
Effect of dilutive securities:		
Stock options	98,000	—
Denominator for diluted net income (loss) per share - weighted average shares	13,422,000	13,605,000

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

2. **Selling Arrangement.** In February 2011, the Company paid News America Marketing In-Store, LLC (News America) \$4,000,000 in exchange for a 10-year arrangement to sell signs with price into News America's network of retailers as News America's exclusive agent. The \$4,000,000 is being amortized on a straight-line basis over the 10-year term of the arrangement. Amortization expense, which was \$400,000 for each of the years ended December 31, 2013 and 2012, and is expected to be \$400,000 per year over the next five years, is recorded within Cost of Services in the Company's Statements of Operations. The net carrying amount of the selling arrangement is recorded within other assets on the Company's balance sheet. A summary of the carrying amount of this selling arrangement is as follows as of December 31:

	2013	2012
Gross cost	\$ 4,000,000	\$ 4,000,000
Accumulated amortization	(1,083,000)	(683,000)
Net carrying amount	\$ 2,917,000	\$ 3,317,000

3. **Property and Equipment.** Property and equipment consists of the following at December 31:

Year ended December 31	2013	2012
Property and Equipment:		
Production tooling, machinery and equipment	\$ 3,826,000	\$ 3,923,000
Office furniture and fixtures	260,000	260,000
Computer equipment and software	896,000	1,085,000

Net Property and Equipment	\$ 1,753,000	\$ 2,149,000

Depreciation expense for the years ended December 31, 2013 and 2012 was \$658,000 and \$748,000, respectively.

4. **Commitments and Contingencies.**

Operating Leases. The Company has an operating lease for its current facility which is in effect from August 2008 through February 2016. Rent expense under this lease, excluding operating costs, was approximately \$445,000 in each of the years ended December 31, 2013 and 2012.

Minimum future lease obligations under this lease, excluding operating costs, are approximately as follows for the years ending December 31:

2014	\$ 484,000
2015	492,000
2016	82,000

Retailer Agreements. The Company has contracts in the normal course of business with various retailers, some of which provide for fixed or store-based payments rather than sign placement-based payments. During the years ended December 31, 2013 and 2012, the Company incurred \$1,914,000 and \$1,704,000 of costs related to fixed and store-based payments, respectively. The amounts are recorded in Cost of Services in the Company's Statements of Operations.

Aggregate commitment amounts under agreements with retailers are approximately as follows for the years ending December 31:

2014	\$ 1,030,000
2015	608,000
2016	94,000

On an ongoing basis the Company negotiates renewals of various retailer agreements. Upon the completion of future contract renewals, the annual commitment amounts for 2014 and thereafter could be in excess of the amounts above.

Legal. The Company is subject to various legal matters in the normal course of business. Management believes the outcome of these matters will not have a material adverse effect on the Company's financial position or results of operations.

5. Shareholders' Equity.

Stock-Based Compensation. The Company's stock-based compensation plans are administered by the Compensation Committee of the Board of Directors, which selects persons to receive awards and determines the number of shares subject to each award and the terms, conditions, performance measures and other provisions of the award.

The following table summarizes the stock-based compensation expense which was recognized in the Company's Statements of Operations for the years ended December 31, 2013 and 2012:

Year ended December 31	2013	2012
Cost of sales	\$ 22,000	\$ 93,000
Selling	176,000	104,000
Marketing	16,000	18,000
General and administrative	319,000	127,000
	\$ 533,000	\$ 342,000

The Company uses the Black-Scholes option-pricing model to estimate fair value of stock-based awards with the following weighted average assumptions:

	2013	2012
<i>Stock Options:</i>		
Expected life (years)	3.9	4.2
Expected volatility	52 %	71 %
Dividend yield	0 %	0 %
Risk-free interest rate	1.2 %	0.6 %
	2013	2012
<i>Stock Purchase Plan Options:</i>		
Expected life (years)	1.0	1.0
Expected volatility	51 %	46 %
Dividend yield	0 %	0 %
Risk-free interest rate	0.2 %	0.1 %

The Company uses the straight-line attribution method to recognize expense for unvested options. The amount of stock-based compensation recognized during a period is based on the value of the awards that are ultimately expected to vest. Forfeitures are estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The Company re-evaluates the forfeiture rate annually and adjusts it as necessary.

As of December 31, 2013, there was approximately \$296,000 of total unrecognized compensation costs related to the outstanding stock options which is expected to be recognized over a weighted average period of 1.8 years.

Stock Options. Prior to 2013, the Company had stock options plans (the "1990 Plan" and the "2003 Plan") for its employees and directors under which substantially all of the shares reserved for issuance had been issued. In May 2013, the Company's shareholders approved the 2013 Omnibus Stock and Incentive Plan (the "2013 Plan"), which

replaced the 2003 Plan. Options granted under the 2003 Plan will remain in effect until they are exercised or expire according to their terms. There are no options outstanding in the 1990 Plan. All current option grants are made under the 2013 Plan.

Under the terms of the 2013 Plan, the Company may grant up to 250,000 awards in a variety of instruments including incentive or non-qualified stock options to employees, consultants and directors generally at an exercise price at or above 100% of fair market value at the close of business on the date of grant. Stock options expire 10 years after the date of grant and generally vest over three years. The Company issues new shares of common stock when stock options are exercised.

The following table summarizes activity under the option plans:

	Plan Shares Available for Grant	Plan Options Outstanding	Weighted Average Exercise Price Per Share	Aggregate Intrinsic Value
Balance at December 31, 2011	21	1,234,737	\$ 4.87

The number of options exercisable under the option plans was:

December 31, 2012	572,552
December 31, 2013	686,998

The following table summarizes information about the stock options outstanding at December 31, 2013:

Ranges of Exercise Prices	Number Outstanding	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price Per Share	Number Exercisable	Weighted Average Exercise Price Per Share
\$1.61 - \$2.46	784,701	8.60 years	\$ 1.81	288,839	\$ 1.78

	<u>1,251,442</u>	7.84 years	\$ 2.72	<u>686,998</u>	\$ 3.22

Options outstanding under the option plans expire at various dates during the period from January 2013 through October 2023. Options outstanding at December 31, 2013 had a weighted average remaining life of 7.84 years and an aggregate intrinsic value of \$722,000. Options exercisable at December 31, 2013 had a weighted average remaining life of 7.14 years and an aggregate intrinsic value of \$275,000. The weighted average grant-date fair value of options granted during the years ended December 31, 2013 and 2012 were \$1.01 and \$0.90, respectively.

In December 2013, equity grants were made by the Company to the Board of Directors, pursuant to the 2013 Plan in the form of shares of common stock. The total number of shares granted to the Board of Directors was 39,032 during the year ended December 31, 2013. The shares were issued at \$2.69 per share, based on the stock price on the date of grant, for a total value of \$105,000, which is included in stock-based compensation.

Employee Stock Purchase Plan. The Company has an Employee Stock Purchase Plan (the “Plan”) that enables employees to contribute up to 10% of their base compensation toward the purchase of the Company’s common stock at 85% of its market value on the first or last day of the year. During the years ended December 31, 2013 and 2012, employees purchased 56,000 and 76,000 shares under the Plan. At December 31, 2013, 179,000 shares are reserved for future employee purchases of common stock under the Plan. For the years ended December 31, 2013 and 2012, the Company recognized \$34,000 and \$33,000, respectively, of stock-based compensation expense related to the Plan.

Stock Repurchase Plans. On February 22, 2011, the Board of Directors authorized the repurchase of up to \$15,000,000 of the Company’s common stock on or before January 31, 2012. On May 25, 2011, the Board amended the plan to increase the maximum share purchase amount from \$15,000,000 to \$20,000,000. The plan expired on January 31, 2012. The Company repurchased a total of 3,877,000 shares totaling \$17,562,000 under this plan.

On July 18, 2013, the Company commenced a “modified Dutch auction” tender offer (“Tender Offer”) to purchase up to \$12 million of its common stock. Under the terms of the Tender Offer, the Company’s shareholders had the opportunity to tender some or all of their shares at a price within the range of \$2.15 to \$2.35 per share. The Tender Offer expired on August 15, 2013. The Tender Offer resulted in the purchase of 929,051 shares at \$2.35 per share, for an aggregate cost to the Company of approximately \$2.2 million, excluding fees and expenses related to the Tender Offer.

On December 3, 2013, the Board of Directors authorized the repurchase of up to \$5,000,000 of the Company’s common stock on or before December 3, 2015. The Plan allows the repurchases to be made in open market or privately negotiated transactions.

6. **Income Taxes.** Income tax expense (benefit) consists of the following:

Year Ended December 31	2013	2012
Current taxes - Federal	\$ 816,000	\$ (772,000)
Current taxes - State	52,000	47,000
Deferred taxes - Federal	139,000	101,000
Deferred taxes - State	39,000	(9,000)
Income tax expense (benefit)	\$ 1,046,000	\$ (633,000)

Significant components of the deferred taxes are as follows:

As of December 31	2013	2012
Current Deferred Tax Assets:		
Accrued compensation	\$ -	\$ 304,000
Accrued expenses	134,000	142,000
Net operating loss carryforwards	16,000	8,000
Inventory reserve	14,000	10,000
Other	7,000	14,000
Current deferred tax assets	\$ 171,000	\$ 478,000
Long-Term Deferred Tax Assets (Liabilities):		
Depreciation	\$ (372,000)	\$ (513,000)
Stock options	68,000	46,000
Net operating loss carryforwards	20,000	54,000
Long-term deferred tax liabilities	\$ (284,000)	\$ (413,000)

The Company evaluates all significant available positive and negative evidence, including the existence of losses in prior years and its forecast of future taxable income, in assessing the need for a valuation allowance. The underlying assumptions the Company uses in forecasting future taxable income require significant judgment and take into account the Company's recent performance.

The actual tax expense (benefit) attributable to income from continuing operations differs from the expected tax expense (benefit) computed by applying the U.S. federal corporate income tax rate of 34% to the net income (loss) as follows:

Year Ended December 31	2013	2012
Federal statutory rate	34.0 %	(35.0) %
Stock options	4.9	4.6
State taxes	1.6	0.1
Other permanent differences	0.7	1.1
Impact of uncertain tax positions	1.2	0.9
Other	0.7	0.2
Effective federal income tax rate	43.1 %	(28.1) %

The Company has recorded a liability of \$458,000 and \$430,000 for uncertain tax positions taken in tax returns in previous years as of December 31, 2013 and 2012, respectively. This liability is reflected as Accrued Income Taxes on the Company's Balance Sheets. The Company files income tax returns in the United States and numerous state and local tax jurisdictions. Tax years 2010 and forward are open for examination and assessment by the Internal Revenue Service. With limited exceptions, tax years prior to 2010 are no longer open in major state and local tax jurisdictions. The Company does not anticipate that the total unrecognized tax benefits will change significantly prior to December 31, 2014.

A reconciliation of the beginning and ending amount of the liability for uncertain tax positions is as follows:

Balance at January 1, 2012	\$ 424,000
Reduction as a result of filing state tax returns	(13,000)
Increases due to interest	19,000
<hr/>	
Balance at December 31, 2012	430,000
Resolution of prior year items	(3,000)
Increases due to current year positions	10,000
Increases due to interest	21,000
<hr/>	
Balance at December 31, 2013	<u>\$ 458,000</u>

7. **Employee Benefit Plans.** The Company sponsors a Retirement Profit Sharing and Savings Plan under Section 401(k) of the Internal Revenue Code. The plan allows employees to defer up to 50% of their wages, subject to Federal limitations, on a pre-tax basis through contributions to the plan. During the years ended December 31, 2013 and 2012, the Company made a matching contribution of \$61,000 and \$59,000, respectively.
8. **Restructuring.** The Company implemented a plan to restructure its operations in March 2012, including workforce reductions, salary adjustments and other cost-saving initiatives. As part of this restructuring plan, approximately 29% of the Company's workforce was reduced. A restructuring charge of \$373,000 was recorded during 2012. The Company recorded \$93,000 of this charge within Cost of Sales, and \$280,000 within Operating Expenses in the Company's Statements of Operations. All amounts related to this restructuring had been paid by December 31, 2012.
9. **Concentrations.**

Major Customers. During the year ended December 31, 2013, one customer accounted for 31% of the Company's total net sales. At December 31, 2013, this customer represented 47% of the Company's total accounts receivable. Additionally, another customer accounted for 14% of the Company's total accounts receivable as of December 31, 2013. During the year ended December 31, 2012, one customer accounted for 30% of the Company's total net sales. At December 31, 2012, this customer represented 43% of the Company's total accounts receivable.

Although there are a number of customers that the Company sells to, the loss of a major customer could adversely affect operating results. Additionally, the loss of a major retailer from the Company's retail network could adversely affect operating results.

Export Sales. Export sales accounted for less than 1% of total net sales during the years ended December 31, 2013 and 2012.

10. Quarterly Financial Data. (Unaudited)

Quarterly data for the years ended December 31, 2013 and 2012 was as follows:

Year Ended December 31, 2013	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter
Net sales	\$ 7,396,000	\$ 6,133,000	\$ 7,320,000	\$ 6,906,000

11. Subsequent Events.

In February 2014, the Company and Valassis Sales and Marketing Services, Inc. (“Valassis”) signed a new agreement that replaced all prior agreements. As a result of this new agreement, which is in effect through December 31, 2017, among other things, Valassis is no longer an exclusive reseller of the Company’s POPSign and the Company now has access to all consumer packaged goods manufacturers for the sale of POPSigns, in exchange for total consideration of \$500,000 which is being paid in 2014.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosures

Not applicable.

Item 9A. Controls and Procedures

Disclosure Controls and Procedures

The Company’s management carried out an evaluation, under the supervision and with the participation of the Company’s Chief Executive Officer (principal executive officer) and the Company’s Chief Financial Officer (principal financial officer), of the effectiveness of the design and operation of the Company’s disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of December 31, 2013, pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, the Company’s Chief Executive Officer and the Company’s Chief Financial Officer concluded that the Company’s disclosure controls and procedures as of December 31, 2013 were effective. Disclosure controls and procedures ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and are designed to ensure that information required to be disclosed by us in these reports is accumulated and communicated to our management, as appropriate to allow timely decisions regarding disclosures.

Management’s Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate control over financial reporting, as such term is defined in Rule 13a-15(f) of the Exchange Act. Under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting as of December 31, 2013. In conducting its evaluation, our management used the criteria set forth by the framework in the 1992 Internal Control – Integrated Framework issued by the

Committee of Sponsoring Organizations of the Treadway Commission. Based on that evaluation, management believes our internal control over financial reporting was effective as of December 31, 2013.

This Annual Report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this Annual Report.

Changes in Internal Control Over Financial Reporting

No changes in the Company's internal control over financial reporting have occurred during the fourth quarter of 2013 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER

I, Glen P. Dall, certify that:

1. I have reviewed this report on Form 10-K of Insignia Systems, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and we have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant is made known to us by others within the Company, particularly during the period in which this report is being prepared; and
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles; and
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting;
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
